FUNDAMENTALS OF ENGINEERING (FE) EXAM INFORMATION
INSTRUCTIONS FOR APPLICATION
(for VT students enrolled *at time of examination*)

</div>

ELIGIBILITY
Undergraduate candidates must be within 12 months of graduation from Virginia Tech when they sit for exam.
Graduate candidates must be within 6 months of graduation from Virginia Tech when they sit for exam.

EXAM FORMAT AND APPLICATION INSTRUCTIONS
Application and test fees total $225.00. The FE exam is a computer based test (CBT) that each student schedules to take individually at a local Pearson VUE location (https://ncees.org/exams/test-center-locations/)

You will register and schedule your appointment through your My NCEES account on the NCEES website. NCEES will approve the applicant, and email instructions for logging back in and scheduling individual exam time/location. Applicant will then select the exam location, and will be presented with a list of available exam dates for the appointment. If you are not happy with the choices, you can browse through the available dates at another NCEES-approved testing center.

DPOR REGISTRATION
Applicants must also register with the Department of Occupational and Professional Regulations (DPOR). While there is no deadline associated with the application to DPOR, the Engineer In Training (EIT) Designation is not issued until the EIT Designation Application is satisfactorily completed. DPOR will require a letter of good standing, which you may get from your Academic Advisor (list found at https://eng.vt.edu/academics/services-for-students/academic-advisors.html).

More information can be found on the DPOR webpage at www.dpor.virginia.gov. Specific forms include the EIT Designation Application and the EIT Degree Verification Form, which can be found on DPOR's website: https://www.dpor.virginia.gov/sites/default/files/boards/APELS/A416-0402_20DEG_pdf.. If you are applying prior to graduating from VT, you must include a letter of good standing. If you are applying after graduating from VT, you must include an EIT Reference Form.

AFTER THE EXAM
Upon successful completion of the FE exam, the candidate will be emailed instructions for completing the EIT Designation Application through the Department of Occupational and Professional Regulations (DPOR). While there is no deadline associated with the application to DPOR after passing the exam, the EIT license will not be issued until the EIT Designation Application is satisfactorily completed.

STUDENTS WITH DISABILITIES
You must be registered with the Office of Services for Students with Disabilities, 310 Lavery Hall, to request accommodations for a disability. You must submit the paperwork required as described under on the NCEES (National Council for Examiners of Engineering and Surveying) Special Accommodations link (https://ncees.org/exams/special-accommodations/)
