

RISING SOPHOMORE ABROAD PROGRAM (RSAP)

RSAP combines a Spring course with a two-week international module abroad in May. By giving students a taste of an international experience and increasing their comfort level with global travel, the program promotes additional, more extended international academic experiences such as internships, study abroad programs, or faculty-led programs.

Accepted students will be registered for Global STEM Practice (ENGE 1644) in the spring semester. The class is designed to introduce students to global engineering and science, emphasizes the importance of cultural competency for engineers and scientists, and focuses on how differences in cultural, social and economic contexts influence engineering and science in practice. ENGE 1644 fulfills the Pathways 3 requirement.

PROGRAM LOCATIONS

- Norway & Finland
- United Kingdom & Ireland
- Italy & Germany
- Spain & Morocco
- Japan & South Korea
- Australia & New Zealand
- Argentina & Chile

SCHOLARSHIPS

Scholarships are available! Check our website for specific information and deadlines.

APPLICATION DEADLINE

The RSAP application opens August 15, 2022, and is due no later than October 1, 2022. Applications will be reviewed on a rolling basis throughout the application window.
