HOW TO SELF-EVALUATE YOUR TRANSFER CREDITS

You will work virtually with an academic advisor for your advising and course registration process during the engineering virtual orientation experience. If you want to work ahead independently to understand how prior credits may transfer to Virginia Tech and how those credits may count toward your graduation requirements, use the table below or create your own if you need more space to list any expected credits/exams you completed. The links below will help you understand the VT equivalency.

Equivalency Charts, Guides, and Databases

☐ EXAM EQUIVALENCIES
The University Registrar’s office provides equivalencies for the below based on the year completed.
- Advanced Placement (AP)
- Cambridge International Examinations
- International Baccalaureate (IB)

☐ VIRGINIA COMMUNITY COLLEGE TRANSFER GUIDE
Use the VCCS Equivalency Guides for the year the course was taken.

☐ INSTITUTIONAL TRANSFER EQUIVALENCY DATABASE
Use the Transfer Equivalency Database to determine equivalencies from other institutions. This database reflects courses previously evaluated for transfer credit. You will select Country, then State, then College. You can then search by the subject of the course at the transfer institution or by the subject of the VT course.

☐ COURSES NOT FOUND IN THE TRANSFER EQUIVALENCY DATABASE
The College of Engineering Academic Affairs Office will review the unofficial transcripts you provided on the General Engineering Pre-Orientation Form (Details will be sent November 16) and work with the administrator in each of our departments on your behalf to get the courses evaluated. This process allows us to ensure everything is done systematically. In some cases a syllabus will be needed; you will be contacted if this is necessary. Once evaluations are complete, the COE Academic Affairs Office will communicate your equivalencies with you and your academic advisor to assist with course registration.

Sample Self Evaluation (for your own records)

Determine if a Course Fulfills a Pathways Requirement

Complete the Pathways column for each course by writing which Pathways requirement it satisfies, if any. To determine if a course is a Pathways course, use the Pathways to General Education Course Guide, and search for the VT course equivalent. If the course is not approved as a Pathways, it will not be in the Pathways Courses Table. If it is approved as a Pathways, you will see the approved Pathways in the “Pathways Concept” column. If a course is approved for more than one Pathways, you will see another number in the “Other Concept” column. For a course with a 7 in the “Other Concept” column, the course can be counted in both Pathways indicated (2 and 7 in the example on right). If you see a number other than 7 in the “Other Concept” column, the course will only count for one of the indicated Pathways, you can choose which one.

Graduation Requirements (Checksheets)

All majors are composed of the following components: degree core, major requirements, pathways to general education, and electives. You can view each major’s requirements using our checksheets (College of Engineering Undergraduate Graduation Requirements).

Send Your AB, IB, and Cambridge Scores

Scores should be sent directly from the testing agency to the Office of the University Registrar, Student Services Building Suite 250, 800 Washington St., SW, Blacksburg, Virginia 24061. We cannot accept transcripts from other institutions to award credit for these exams. Scores must come from the testing agency or through original score reports. https://www.registrar.vt.edu/Advanced-Standing-Transferable-Credit.html.

Send Your Official Transcripts

Official transcripts from high school, prior colleges, and universities should be sent to the Office of Undergraduate Admissions, Virginia Tech, 925 Prices Fork Road, Blacksburg, VA 24061. If you took dual enrollment classes while in high school, you must send your transcript from the college or university that the courses were taken through (your high school transcript cannot be used to award transfer credit at VT). If you took courses at multiple colleges or universities, you must send copies of the transcripts from each institution for credit to be awarded (do not assume credit awarded at one institution will transfer as the same transferrable credit to VT). Only courses in which a “C” or better is earned will transfer to Virginia Tech.

Verify Your Processed Scores and Transcripts

You can verify when Virginia Tech has processed your college transcripts/score reports on Hokie Spa. Go to Hokie Spa > click Grades Menu > click Transfer and Other Additional Credits. Please be patient as this process can take some time.
